Active Sourcing

Through direct search and targeted identification of candidates in our own and public networks, we find the perfect candidates who fit your company the best.

With our talent pipelining we support you in the planning of your future personnel requirements and ensure that we always have the perfect candidates available for you.

As sourcing and recruiting specialists, we manage the complete recruitment process for you on your request. This will help you reduce your fix internal HR and recruiting costs while benefiting from a higher number and quality of candidates.

We enable you to be actively involved in the recruitment process; you decide when we should contact the perfect candidates from our talent pipeline and talent pool.

Talent mining is a search engine driven combination of proactive social media sourcing methods. We identify the perfect candidates for you precisely by scanning across different platforms.
